

(SECTION - A)

(Comprehension)

Attempt Carefully the following Questions.

Q1. Read the passage and attempt the questions which follow :

We all want to Protect our planet, but we are mostly too busy or too lazy to put up big charge that would improve our lifestlye and save the environment. There is nothing new here but if we follow some tips you can be proud of yourself participating in the protection of environment.

1. Use compact florscent light bulbs. It is true that these bulbs are more expensive but they last much longer and save energy and in the long term electricity bill would be reduced.
2. Donate: You have tons of clothes or things you want to get rid of. If they are still us-

able, give them to someone who needs them. Not only will you protect the environment but will contribute to a good cause.

3. Walk or cycle: Driving is one of the biggest cause of pollution. Instead of using fuel cars and vehicles we should prefer walk or cycle. Atleast for shorter distances. it will save environment and our health too.
4. Rain water : If saved properly, Rain water can be much useful. It can remove the problem of scarcity of water for draught hit areas.
5. Leaky faucets : We should check or taps and faucets and if found leaky, we should repair them it can save water and pollution too as sometime, this water blocks the drainage system and creates problems.
6. Use of dustbins:. We should use dustbins to dispose off waste material and shun away from throwing garbage anywhere in the streets and rivers.

This list is for from being exhausture but

in addition to saving the environment. All these tips will help us save money too.
