(SECTION - A)

Attempt all the question carefully.

Q1. Read the following passage carefully and answer the questions that follow : (2×5=10)

Flamingos are social birds which live together in harmony. There are different species of flamingos which are found in tropical and sub-tropical areas of the North-West India, the Middle East, Western Mediterranean and Africa. At times, the birds can also be found in limited numbers in northern Europe and Siberia. Flamingos are active both in the day and night. As they stand mostly in water, they find food by using their legs to stir up mud. Using their beak they then sift through mud and eat seeds, algae, crustaceans and mollusc. They have webbed feet and can be seen standing on one foot. Flamingos fly with their heads and necks
